Marlene H. Dortch, Secretary  
Federal Communications Commission  
Office of the Secretary  
445 12th Street SW  
Washington, DC 20554

RE: Docket No. 07-16

Dear Secretary Dortch:

Throughout my media career, as both a television news reporter and public affairs professional, I have been an advocate for providing a quality education to all of America's children. The promise of our great country hinges on that commitment, and our ability to remain great is contingent upon us fulfilling it at every turn.

I recently read about an opportunity to extend that commitment by way of broadband access for all Americans. The FCC has before it a proposal that would deliver **fast**, free, and family-friendly broadband service across America.

As I understand it, this plan, proposed by **M2Z** Networks, a nationwide broadband service, would **be** available without any fee. Users would need only a certified modem, which could **be** obtained at an electronics store or online.

I urge you to whole-heartedly support this proposal, and do everything in your power to ensure that it comes to fruition. Thank you for your time and consideration.

Sincerely,

Amyre Makupson  
Former television **News** Anchor  
Public Affairs Manager  
UPN50 and 62CBS Detroit
